You can also buy weaving and spinning kits, and some yarn.

## Taster workshop

Also if you are interested in a more hands on experience with natural dyes you can join our Natural Dye taster workshop which takes place from 2.30 - 3.30pm

In this 1 hour workshop you will learn how to extract colour from two locally available and sustainable plants. Nettle and onion give a variety of colours and are historically interesting, but can also be used in contemporary textiles.
